## Book Description

Isla Tansy Mortenson Wallace was a noted local neurosurgeon, wife of local veterinarian Jim Wallace, and one of Chattanooga's movers and shakers. That is until she was found dead on her own property. Did she fall off her horse? Was she thrown? Was she murdered? And if she was killed, by whom, and how, and why? Why does Lt. Kate Gazzara not want Harry Starke anywhere near the case? Lots of questions and no answers. Harry Starke is out of retirement, back on the job, and his long-time friend, Jim Wallace, is in big trouble. The evidence against him is overwhelming. To keep Jim from facing death row, Harry must find answers to all of those questions and, as usual, there is a twist in the tale.
